

Weekly Test

NCERT IV – MATHS 211

Roll No.

Code No. MATHS/WT1/IV/211/26
Set A

--	--	--	--	--	--	--	--	--	--	--	--

Day and Date of Examination

Signature of Invigilators

1. _____

2. _____

General Instructions:

1. Candidate must write his/her Roll Number on the first page of the Question Paper.
2. Please check the Question Paper to verify that the total pages and the total number of questions contained in the Question Paper are the same as those printed on the top of the first page. Also check to see that the questions are in sequential order.
3. For the objective-type of questions, you have to choose any one of the four alternatives given in the question i.e. (A), (B), (C) or (D) and indicate your correct answer in the Answer-Book given to you.
4. All the questions including objective-type questions are to be answered within the allotted time and no separate time limit is fixed for answering objective-type questions.
5. Making any identification mark in the Answer-Book or writing Roll Number anywhere other than the specified places will lead to disqualification of the candidate.
6. In case of any doubt or confusion in the question paper, the English Version will prevail.
7. Write your Question Paper Code No. 70/OS/2, Set A on the Answer-Book.
8. (a) The Question Paper is in English/Hindi medium only. However, if you wish, you can answer in any one of the languages listed below:
English, Hindi, Urdu, Punjabi, Bengali, Tamil, Malayalam, Kannada, Telugu, Marathi, Odia, Gujarati, Konkani, Manipuri, Assamese, Nepali, Kashmiri, Sanskrit and Sindhi.

You are required to indicate the language you have chosen to answer in the box provided in the Answer-Book.

(b) If you choose to write the answer in the language other than Hindi and English, the responsibility for any errors/mistakes in understanding the questions will be yours only.

General Instruction:

1. Answers of all questions are to be given in the Answer-Book given to you.
2. 15 minutes time has been allotted to read this Question Paper. The question paper will be distributed at 15 minutes before; the students will read the question paper only and will not write any answer on the Answer-Book during this period.

Note:

- (i) This question paper consists of 25 questions in all.
- (ii) All questions are compulsory.
- (iii) Marks are given against each question.
- (iv) Section - A consists of:
 - (a) Q. No. 1 to 10 or 1 to 17 - Multiple Choice type Questions (MCQs) carrying 1 mark each. Select and write the most appropriate option out of the four options given in each of these questions.
 - (b) Q. No. 11 to 15 or 18 to 28 - Objective type questions. Q. No. 11 to 15 or 18 to 27 carry 2 marks each (with 2 sub-parts of 1 mark each) and Q. No. 16 or 28 carries 5 marks (with 5 sub-parts of 1 mark each). Attempt these questions as per the instructions given for each of the questions 11 to 15 or 18 to 28.
- (v) Section - B consists of:
 - (a) Q. No. 17 to 21 or 29 to 37 - Very Short Answer type questions carrying 2 marks each.
 - (b) Q. No. 22 to 23 or 38 to 42 - Short Answer type questions carrying 3 marks each.
 - (c) Q. No. 24 or 43 to 44 - Long Answer type questions carrying 5 marks each.

Time : 2 Hours 30 Mins

Maximum Marks: 85

	SECTION A	
	1. What shape of face is common to all pyramids? (A) square (B) rectangle (C) triangle (D) circle	1
	2. According to Euler's formula $(F + V - E)$, what value do you get for 3D shapes like cubes and pyramids? (A) 1 (B) 2 (C) 3 (D) 0	1
	3. An angle that is less than a right angle is called an: (A) Obtuse angle (B) Right angle (C) Acute angle (D) Reflex angle	1

	4. What is the relationship between the radius (r) and the diameter (d) of a circle? (A) Radius is double the diameter (B) Diameter is half the radius (C) Diameter is double the radius (D) Radius and diameter are equal	1
	5. A 3D shape has 1 curved face, 1 flat face, 1 circular edge, and 1 corner. Which shape is it? (A) Cylinder (B) Sphere (C) Cone (D) Triangular Prism	1
	6. When an object is viewed directly from above, which view are you observing? (A) Front View (B) Side View (C) Top View (D) Back View	1
	7. In a standard grid, if an object is placed in Row 1 and Column 1, where is it located? (A) Top right corner (B) Bottom left corner (C) Centre of the grid (D) Bottom right corner	1

	8. What type of movement is NOT allowed in the Grid Game – Treasure Hunt? (A) Upward movement (B) Downward movement (C) Horizontal movement (D) Diagonal movement	1
	9. In Bholu's Grid, which position corresponds to the top right corner of a 3 X 3 grid? (A) Row 3, Column 1 (B) Row 3, Column 3 (C) Row 1, Column 3 (D) Row 2, Column 2	1
	10. Which device was brought by Gyan to capture top-view aerial photos of the school? (A) Camera on a tripod (B) Drone (C) Satellite (D) Telescope	1
	11. Which of the following describes an even number? (A) A number that leaves a remainder when divided by 2 (B) A number that can be completely arranged into pairs (C) A number that ends with 1, 3, 5, 7, or 9 (D) Any number greater than 10	1

	12.If you pick any odd number, what type of numbers come directly before and after it? (A)Both are odd numbers (B)Both are even numbers (C)One is odd and one is even (D)They vary depending on the number	1
	13. Which of the following numbers is an odd number? (A) 300 (B) 154 (C) 78 (D) 415	1
	14. How many even numbers are there between 1 and 100? (A) 49 (B) 50 (C) 51 (D) 100	1
	15.Which of the following represents the expanded form of 4085? (A) $4000 + 800 + 50 + 0$ (B) $4000 + 0 + 80 + 5$ (C) $4000 + 80 + 50 + 10$ (D) $4000 + 0 + 50 + 8$	1

	16. In the place value chart, how many Hundreds make 1 thousand? (A) 10 hundreds (B) 100 hundreds (C) 5 hundreds (D) 1000 hundreds	1
	17. Which sign correctly compares 3012 and 3102? (A) $3012 > 3102$ (B) $3012 < 3102$ (C) $3012 = 3102$ (D) None of the Above	1
	Write TRUE for correct statement and FALSE for incorrect statement	
	18. On a standard die, the sum of numbers on opposite faces equals 7	1
	19. Different people drawing the same brick can end up with different drawings depending on their position and viewing angle.	1
	20. The count of even numbers and odd numbers between 1 and 100 is equal.	1
	21. 5 thousands + 6 hundreds + 0 tens + 3 ones is written as 563.	1

	Fill in the blanks																																					
	22. The Qutub Minar is the tallest building made up of bricks and has _____ storeys.	1																																				
	23. A representation that shows the arrangement and paths between places (like a school or neighborhood) from above is called a _____ map.	1																																				
	24. The three main perspective views used to draw 3D objects like bricks or matchboxes are the top view, side view, and _____ view.	1																																				
	25. All numbers present in the 2-times table are _____ numbers.	1																																				
	26. The value of $900 + \text{______} = 1000$.	1																																				
	27. In the Indian place value system, all numbers can be written using just _____ basic digit symbols (0 to 9).	1																																				
	28. Match the columns	5																																				
	<table><tr><td></td><td>Column A</td><td></td><td>Column B</td></tr><tr><td>A</td><td>30, 78, 154</td><td>1</td><td>6 flat faces, 8 corners, 12 edges</td></tr><tr><td>B</td><td>43, 67, 415</td><td>2</td><td>Even Numbers</td></tr><tr><td>C</td><td>Square Pyramid</td><td>3</td><td>Front View</td></tr><tr><td>D</td><td>Jagat photographing a tree standing on the ground</td><td>4</td><td>5340</td></tr><tr><td>E</td><td>$5000 + 30 + 4$</td><td>5</td><td>Odd Numbers</td></tr><tr><td></td><td></td><td>6</td><td>5 faces, 5 corners, 8 edges</td></tr><tr><td></td><td></td><td>7</td><td>Top View</td></tr><tr><td></td><td></td><td>8</td><td>5034</td></tr></table>		Column A		Column B	A	30, 78, 154	1	6 flat faces, 8 corners, 12 edges	B	43, 67, 415	2	Even Numbers	C	Square Pyramid	3	Front View	D	Jagat photographing a tree standing on the ground	4	5340	E	$5000 + 30 + 4$	5	Odd Numbers			6	5 faces, 5 corners, 8 edges			7	Top View			8	5034	
	Column A		Column B																																			
A	30, 78, 154	1	6 flat faces, 8 corners, 12 edges																																			
B	43, 67, 415	2	Even Numbers																																			
C	Square Pyramid	3	Front View																																			
D	Jagat photographing a tree standing on the ground	4	5340																																			
E	$5000 + 30 + 4$	5	Odd Numbers																																			
		6	5 faces, 5 corners, 8 edges																																			
		7	Top View																																			
		8	5034																																			

	29. Which shape is considered the most rigid because its shape does not change when pushed?	2
	30. How many edges, faces, and corners does a triangular prism have?	2
	31. In the English alphabet letter 'H', how many right angles are formed?	2
	32. Why do Mini, Bholu, and Rani have different drawings of the exact same brick?	2
	33. If you move 3 steps to the right and 2 steps up from the bottom-left corner of a grid, which coordinate/cell do you reach?	2
	34. What tool or map format helps trace the shortest path between a classroom and the school library?	2
	35. Write two 2-digit numbers formed using the digits 1 and 6. (Digits cannot be repeated).	2
	36. Form all possible 2-digit even numbers using the digits 2 and 5. (Digits can be repeated).	2
	37. Ram wrote "7 Thousand 0 Hundreds 2 Tens 4 Ones" as 724. What is the correct number?	2
	38. What is the key difference between a prism and a pyramid? Or If a circle has a radius of 7 cm, calculate its diameter.	3

	39. In the classroom sitting plan, how do row and desk numbers help describe a student's exact position? Give an example. Or How does a top-view drawing of a building or matchbox structure differ from its front-view drawing?	3
	40. Describe how you would locate an apple placed at Row 2, Column 2 in a 3 X 3 grid. Or What is the main benefit of drawing and using a sight map for a large school building?	3
	41. How can you determine whether a multi-digit number like 415 or 300 is even or odd without drawing pairs? Or If Gundappa has 6 coconut trees and plucks 5 coconuts from each tree, how many coconuts did he pluck in total? Is the total number even or odd?	3
	42. Convert 12 hundreds, 18 Tens, and 2 Ones into a single 4-digit standard number. Or Arrange the following cricket scores in ascending order: 4064, 5114, 4814, 7805, 6002.	3

43.	10																								
i) Define Euler's Formula for 3D polyhedrons ($F + V - E = 2$). Verify this formula step-by-step for the following two shapes: a) A Cube / Square Prism b) A Square Pyramid ii) Explain the steps to set up and play the "Grid Game – Treasure Hunt" with a partner on a 4 X 4 grid:																									
44.	10																								
i) Explain how equal grouping and array arrangements can be used to determine the total count of objects and decide whether that total is an even or an odd number. Use the example of a tray containing 4 rows of laddoos with 5 laddoos in each row to illustrate your answer. ii) Compare the heights of the following mountain ranges: Kangchenjunga (8586 m), Mullayanagiri, (1930 m), Chaukhamba I (7138 m), Bailadila Range (1276 m), and Nanda Devi (7816 m). Complete the table below by arranging them in descending order of height, and state in category which range is the tallest and which is the shortest. <table><tr><th>Rank</th><th>Mountain Range</th><th>Height (m)</th><th>Category</th></tr><tr><td>1</td><td></td><td></td><td></td></tr><tr><td>2</td><td></td><td></td><td></td></tr><tr><td>3</td><td></td><td></td><td></td></tr><tr><td>4</td><td></td><td></td><td></td></tr><tr><td>5</td><td></td><td></td><td></td></tr></table>		Rank	Mountain Range	Height (m)	Category	1				2				3				4				5
